Yaoundé, Mvog Betsi , Route Centre Hospitalier Dominicain

PROFILE

Holding a PhD in Geography and a Master's degree in Geomatics, I combine technical expertise, scientific rigor, and skills in Geographic Information Systems (GIS) and mobile data collection. With extensive freelance experience, I have supported organizations, researchers, and students in the collection, analysis, and interpretation of statistical (descriptive) and spatial data for their projects.

SKILLS

Data collection and processing	• KoboCollect mobile data collection application , CS Pro, EPI Info, SurveySolutions , ODK collect • univariate and bivariate analyses using SPSS, Excel, Epi Info, and STATA software • Nvivo software for high-quality data processing • Proficiency in the Power BI software environment (Power BI Desktop, Service, Mobile, Report server, Gateway)
Cartography and Geographic Information Systems	• Design and implementation of Geographic Information Systems (GIS), databases, data mining, data administration, GIS/raster or vector data interpolation / satellite imagery ... • Garmin GPS receivers • ArcGIS , MapInfo , and Google Earth Pro applications
Remote sensing	• Image analysis, Supervised classification, • Principal component analysis (PCA), • Determination of the areas occupied by each taxon, • Analysis and interpretation of results, development of spatial maps , DEMs, thematic maps, • Use of Google Earth Engine
Computer science	• Proficient in computer programming languages: HTML, CSS, JavaScript , PHP and Python (currently undergoing certification) • PostgreSQL / PostGIS , MySQL, and MS Access database management systems. • Complete mastery of the working environments of Windows and Linux operating systems • Complete mastery of the working environments of the Office Suite software
Spoken, written and read languages	• French: speaking (good), writing (good) and reading (good) • English: speaking (good), writing (good) and reading (good) • Italian (CILS B2)

EDUCATION AND QUALIFICATION

2023: PhD in Urban Geography
University of Dschang

Thesis title: Accessibility and urban mobility in Bafoussam: a socio-environmental inequalities approach . Doctoral thesis, Grade: Very honorable

2019: Master II in Geomatics Applied to Resource Management

Project title: Observatory of the transport system of the city of Bafoussam: contribution of remote sensing and GIS,
Final year dissertation for a Master's degree in Geomatics.
Rating: Very good

2016: DIPET II in Computer Science

End of training achievement : Conception and realization of a web mapping application of geolocalization of health infrastructure in Bamenda Town ,
Grade: Honors
ENSET DE BAMBILI (University of Bamenda)

2016: Master II Geography

Topic: Accessibility and Functioning of Urban Neighborhoods in Bafoussam (West Cameroon) . Master's Thesis in Geography (University of Dschang), Grade: Very Good

2011: Bachelor's Degree in Geography

Geography degree, September 2011 session

2008: Baccalaureate

Baccalaureate, Series A4 German, June 2008 session,

CERTIFICATIONS AND OTHER TRAINING

2024

Mastering Power BI Report Design - Beginner to Advanced Data Science with the R Language: Getting Started with IDEs
Alphorm.Formation .

2023

2022

Project management: become a successful project manager
Udemy Training By AJIRITI / Pascal Lochert & Catherine Kong

2022

MOOC on urban data management: key to the development of smarter African cities.

2017

MOOC on African Cities: Mobility and Urban Transport.

2017

Training workshop: "Urban Development 2.0: operational tools for integrated urban planning" .

PROFESSIONAL EXPERIENCES

Jan 2026- Present

Lecturer in ENSTP Yaoundé, Department of Architecture and Town Planning

- Teaching GIS
- Teaching Drawing Assisted by Computer

2020- present

Virtual assistant and GIS Professional freelancer

Design and execution of mapping, remote sensing and web mapping projects for various theses, master's theses and other projects

2017- 2026	Computer Science and Information and Communication Technology Teacher, MINESEC - CETIC NKONGOA (Mfou) Instructor (Trainer) at the University of Dschang, training Master's students (first and second year) in the use of KoboTool / KoboCollect software
2020-2021	Part-time teacher at CRESA-FORET BOIS, computer-aided data collection and processing course. Master's level
2017-2018	Volunteer technical monitor for qualitative data collection Master's level
From 2016 to the present day	- Volunteer monitor for guided map reading and interpretation exercises, first-year undergraduate level, University of Dschang - Volunteer tutor for thematic mapping tutorials, second year undergraduate level, University of Dschang - Volunteer monitor for tutorials in remote sensing and photo interpretation, third year undergraduate level, University of Dschang

Participation in the project

2019 (January-June) Data Analyst Assistant	Project Study of the Residential Land Supply System in the Yaoundé metropolitan area (SATRY), World Bank. Objectives . To provide knowledge about this land supply system for the formulation of effective public policies and the identification of necessary interventions with a view to more inclusive urban growth and shared prosperity. Work completed : data processing using SPSS and participation in report writing
2017: Data Analyst Assistance	Project to evaluate the implementation of the capacity building plan for beneficiaries of support from the Agricultural Markets Investment and Development Project (PIDMA). Work done : Data collection, data processing and participation in the drafting of deliverables.
2012-2016: Member of the data collection and processing team in the urban section of the project	RurbanAfrica Project , urban-rural connections in sub-Saharan Africa, funded by the European Union / RurbanAfrica , African Rural-City Connections, European Programme FP7 / Grant No. 290732 Work done: Data collection, data processing and participation in the drafting of deliverables.

SCIENTIFIC PUBLICATIONS

2021	Intercity mobility and road safety along National Route No. 5 Békoko-Bandjoun (Cameroon) Space, Territories, Societies and Health Review [online] 2021, published online on 12/30/2021 URL: https://retssa-ci.com/index.php?page=c
------	---

2021

Roads, accessibility and functioning of urban spaces in Bafoussam ,
Collective work: Urban-rural connections in Cameroon. For rural solutions to urban problems and urban solutions to rural problems (Harmattan Publishing, Paris)
<https://www.editionsarmattan.fr/catalogue/couv/aplat/9782343221120.pdf>

2017

Residential mobility trajectories and integration in Douala and Bafoussam , Cameroon

Geografisk Tidsskrift -Danish Journal of Geography
DOI:10.1080/00167223.2017.1362351
Article link: <http://dx.doi.org/10.1080/00167223.2017.1362351>

CONFERENCES AND CONTINUING EDUCATION

2024

Colloquium "Death: A Pluralistic Writing of a Geography of Life" Cameroon Geographical Society, ENS Yaoundé

2022

Title of the communication : From road insecurity to the symbolization of death on national roads No. 3, 4 and 5 in Cameroon (Triangle of death).
Colloquium on the Refounding of Geography, Cameroonian Geographical Society, ENS Yaoundé

2018

Training workshop on Geographic Information Systems, Mapping and Remote Sensing held at the University of Dschang from April 2nd to 6th, 2018. Held during Forestry Week.

2017

Training workshop: "Urban Development 2.0: Operational tools for integrated urban planning" , held in Yaoundé on December 9-10 and 11, 2017. On the occasion of the 2nd ^{International} Conference on Sustainable Urbanization in Canada, China and Africa.

2015

Workshop on the Analysis and Processing of Cartographic Data Using GIS Software (Quantum GIS and Arc GIS) within the framework of the RurbanAfrica project .

2014

Workshop on the collection and processing of statistical and cartographic data using Cs Pro, SPSS and GPS software within the framework of the RurbanAfrica project .
